# FHIRを用いた接続の展示

# IHE理事会

- ❖ FHIR「コネクタソン」はけしからん
- ❖ FHIRは、接続性、ツールの再利用はあっても、相互運用性に欠けるので、そこでIHEのツールの出番
  - ❖ CAsC (Conformity Assessment) ツール
  - ❖ IHE-Jも出資して開発開始、テストで利用.

The image shows a magazine spread from the February 20, 2017, issue of HIMSS Daily Insider. The left page features a large photograph of the Tokyo 2020 Olympic Stadium, which is a massive, multi-tiered structure with a retractable roof. Below the photo is a headline: "Tokyo Olympics presents a healthy opportunity to advance interoperability". A sub-headline reads: "A new HIMSS initiative is working to showcase EHR sharing at the 2020 games. By Gus Venditto". The right page contains several columns of text. At the top right, there's a snippet from another article: "ONC 'GEES' AUDIENCE OF INTEREST In the works: C ground. Sync f By Bernie M...". The main text on the right page discusses the HIMSS initiative, mentioning SNOMED, OHI, and the International Olympic Committee. It also includes a graphic of the Tokyo 2020 logo, which consists of five interlocking rings. The bottom right corner of the page has a small note: "A presentation on the initiative will take place on Wednesday, Feb 22 from 1:30 to 2:30 p.m. at the Interoperability Showcase Theater - Booth 9000".
